

Quality & Performance

EXTENDED WARRANTY

by ActiveLED®

THE BEST WARRANTY IN THE BUSINESS JUST GOT BETTER!

ActiveLED is now offering a lighting industry unprecedented, 12 year warranty on many of our high performance, architectural and industrial LED lighting fixtures. Customers can take our already famous 10 year warranty and extend that by an additional 2 years when they use an ActiveLED Surge Protection Device (SPD) in conjunction with each LED fixture and/or LED driver.*

Customers can enjoy two additional years of fantastic coverage while continuing to benefiting from:

- The same great coverage on both the LED fixture and the LED Driver
- No limitations as to how many hours a day the fixture may be used
- The best ambient temperature range in the industry, and
- Greater than 90% light output guarantee during the warranty period

Take advantage of the best performance LED Fixture Warranty available on the market today.

* SPDs are sold separately. Warranty applies only to product purchased after May 1, 2017. Check ActiveLED.com or contact our offices for more information. Certain requirements and limitations may apply.
